Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kaye U.S. patent No. 4,590,037.

Kaye teaches a means for introducing coactive sterilizing agents into a chamber wherein the agents are contained separately in a chamber, which is accessed by a piercing mechanism such that it pierces the plural sterilizing agent containers and provides for their delivery to a sterilization chamber. See figure 3, column 4, lines 19-68 and column 6, lines 15-23.

Claim 1 is are rejected under 35 U.S.C. 102(b) as being clearly anticipated by DE 2206910. See figures 3 and 4.

Response to Arguments

Applicant's arguments filed 7/27/2005 have been fully considered but they are not persuasive. With respect to claim 1, the 102 rejections still apply because the claim language does not require that each of the plural containers contain sterilizing agent therein (as the language of claim 10 does) and because DE 2206910 does teach plural

containers in the axial direction of a needle, just not sequentially in that axial direction as required in claim 10.

Allowable Subject Matter

Claims 2-9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 10-14 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the closest prior art of record namely, Kaye and DE 2206910, fail to teach or suggest the provision of a chamber containing plural, sterilizing agent-containing capsules provided in stacked, sequential alignment along the axis of a piercing mechanism, with the container in communication with a reduced pressure chamber.

It is noted that the Examiner attempted to contact Mr. Andrew Farmer on 10/7/2005, in order to put this case in condition for allowance, however, Mr. Farmer was unavailable at the time.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 1744

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
